HP SmartTracker software

Gain broad control over your printing costs and turn them to your advantage

CONTROL
Powerful data tracking and reporting

- Keep track and compare both print costs and reimbursement fees, at the same time

- Generate/schedule easy-to-read reports—use the default templates or customize them to your preferences

- Consolidate tracking and reporting across multiple HP PageWide XL[1] and DesignJet printers[2]

- Get the complete detail—you can access the source data on a per-page basis

CONSISTENCY
All your jobs are assigned correctly

- Avoid manual data entry and easily merge data from HP SmartStream/HP Click/driver/front panel/MFP[1]

- Assign jobs by print user, project, and department, or edit the categories to fit your workflow

- Get secure print job assignment, with optional password-protected categories that help prevent errors

- Enable correct print job allocation—submit jobs as billable/not billable, and add comments with more info

EFFICIENCY
Easy to use, easy to integrate

- Save time—create invoice-format reports including your company logo

- Avoid manual error—users, projects updated with active directory integration and central projects database

- Free up time—integrate with your current accounting software by easily importing or exporting .csv files

- Make better use of the team's time—automatic fill-in with the last credentials used helps simplify printing
