## C500

The widlaser C500 is designed to effectively respond to the needs of the laser engraving and cutting market. We have developed a compact, fast, robust, reliable and technologically advanced equipment. The compact dual-chassis design, allows you, to have all the necessary elements to properly function with the equipment in a single volume.

Its CleanProtect design, with special dust-proof and smoke-proof linear modules allows speeds and accelerations up to 3 times higher than conventional equipment. This way, we ensure that the C500 widlaser is always operational.

**Dimensions:** 1200 x 1010 x 1240 mm

**Weight:** 250 kg

**Power Supply:** 220v 50/60 10A

**Laser:** 60w CO2 tube

### The best lasers in the market

We have a complete range of laser solutions, with partnerships with the best brands in the market.

### User-friendly Software

Intuitive software with powerful tools, suitable for beginners as well as professionals.

### Endless applications

Engrave and cut various materials with the pulse of a button. Auto-focus for a user-friendly operation.

### First-class materials

Thanks to the intelligent and robust design of the laser machines, we guarantee the reliability, precision and robustness.

---

## Main Specifications

- 60w CO2 laser
- 1 x 1 mm Minimum Letter Size
- 90.000 mm/min of maximum speed
- AI, DST, PLT, BMP, DXF Files
- User-friendly software
- Automatic temperature control
- Smoke extraction system
- USB and Network connectivity
- Automatic air control

---

## Working Area

- 700x500mm Working area
- 150mm adjustable in height
- Auto-Focus
- Removable blades
- Honeycomb table
- Drawer for collecting objects/waist

---

## Options

- 30w CO2 RF Lasers
- Rotary adaptors
- 2 inches lens

## C700

The widlaser C700 is designed to effectively respond to the needs of the laser engraving and cutting market. We have developed a compact, fast, robust, reliable and technologically advanced equipment. The compact dual-chassis design, allows you, to have all the necessary elements to properly function with the equipment in a single volume.

Equipped with a CCD camera, it allows to read positioning sights for recognition, adjustment and positioning of the cut contour, allowing a perfect cut even in the most complex jobs. Its Clean Protect design, with special dust-proof and smoke-proof linear modules allows speeds and accelerations up to 3 times higher than conventional equipment. This way, we ensure that the C700 widlaser is always operational.

**Dimensions:** 1580 x 1350 x 1150 mm

**Weight:** 350 kg

**Power Supply:** 230v 50Hz 16A

**Laser:** CO2

### The best lasers in the market

We have a complete range of laser solutions, with partnerships with the best brands in the market.

### User-friendly Software

Intuitive software with powerful tools, suitable for beginners as well as professionals.

### Endless applications

Engrave and cut various materials with the pulse of a button. Cut and engrave printed materials with perfection.

### First-class materials

Thanks to the intelligent and robust design of the laser machines, we guarantee the reliability, precision and robustness.

---

## Main Specifications

- Laser RECI W2 / SPT T90
- CCD Camera
- 2 x 2 mm Minimum Letter Size
- 72.000 mm/min of maximum speed
- AI, DST, PLT, BMP, DXF Files
- User-friendly software
- Automatic temperature control
- Smoke extraction system
- USB and Network connectivity
- Automatic air control

---

## Working Area

- Up to 1000x700mm Working area
- 150mm adjustable in height
- Removable blades
- Honeycomb table
- Drawer for collecting objects/waist

---

## Options

- CO2 RF Lasers
- Rotary adaptors
- 4 and 2 inches lens
- CCD Camera
