## Xativa Self Adhesive Polypropelene

An 80 micron matt adhesive polypropelene material with semi-permanent adhesive with great colour depth and outstanding image quality.

**Ideal for retail, point of purchase displays and event signage.**

See outstanding image quality with a wide colour gamut using this 80 micron matt finish adhesive polypropelene film. Perfect for short term advertising on store front windows and smooth substrates the semi-permanent adhesive offers great removability from most surfaces without leaving a residue.

Suitable for use with all aqueous based dye, pigment and UltraChrome K3 Inks this film can be laminated for further weather and scratch resistance.

**All specifications are correct at time of print and are subject to change without notice. E&OE**

### Product specifications

<b>Weight</b>	185 g/m <sup>2</sup> (+/- 5)												
<b>Thickness</b>	190 microns (+/- 5 microns)												
<b>Media layer thickness</b>	115 microns (+/- 5 microns)												
<b>Media layer weight</b>	90 g/m <sup>2</sup> (+/- 5)												
<b>Release film thickness</b>	50 microns (+/- 5 microns)												
<b>Release film weight</b>	70 g/m <sup>2</sup> (+/- 5)												
<b>Opacity</b>	> 96%												
<b>Whiteness</b>	120 (+/- 3%)												
<b>Finish</b>	Matte												
<b>Adhesive strength</b>	Good												
<b>Water resistance</b>	Good												
<b>Operating temperature</b>	15 to 100 degrees centigrade												
<b>Operating humidity</b>	20 to 80% RH												
<b>Dry time</b>	Instant dry with heating (at 23 degrees centigrade, 50% RH)												
<b>Shelf time</b>	2 years, unopened in original packaging												
<b>Storage temperature</b>	0 to 40 degrees centigrade												
<b>Storage humidity</b>	5 to 95% RH												
<b>Country of origin</b>	Product of United Kingdom												
<b>Printer / Ink Compatibility</b>	Compatible with all eco, mild and hard solvent printers as well as latex and UV printers with leading manufacturers such as Hewlett Packard, Epson, Roland, Mimaki and Durst Can be laminated with commercially available thermal and pressure sensitive films												
<b>Lamination</b>
